

REFUSE ME

DO NOT BUY
MILK CRATES
FOR SCRAP

MILK CRATES ARE PRIVATE PROPERTY

Milk Crates are the property of the dairy company whose name is printed on the side of the crate.

No one should buy or sell crates for scrap. Accepting milk crates clearly labeled with the name of a dairy company is illegal.

Milk crates are designed to be used over and over and over again by their proper owners -- dairy companies. In fact, there are a few that have been in the milk delivery system since 1976.

Damaged crates are sent to the crate manufacturer and used to make new ones.

The loss of milk crates through scrap recycling and illegal "chop shops" is costing large and small dairy companies tens of millions each year.

Most milk crates disappear because of outright criminal theft. These criminals steal virtually anything then can get their hands on and sell it for scrap.

In some cases, organized criminal enterprises are being formed.
